State Librarian IMPLICATES BOY IN CONFESSION

Earl Sterrett of Indianapolis Held in Connersville For Robbing I. & C. Station at New Palestine.

SAYS GLENWOOD BOY HELPED

In Written Confession Declares Two Youths Assisted and Got Most of the Money.

Confessing to the bold robbery of the I. & C. traction company's station at New Palestine two weeks ago Thursday night, November tenth, Earl Sterrett, nineteen-year-old son of Mr. and Mrs. Lewis Sterrett of Indianapolis, implicated two other youths, one a resident of Glenwood, in the Connersville jail late yesterday afternoon. Young Sterrett made a statement, which he signed, to Will M. Frazee of this city, claim agent for the I. & C., in the presence of Policeman Henry M. Gordon of the Connersville force.

The boy described minutely the actions of the three who broke into the New Palestine station two weeks ago, declaring that he was assisted by a boy, whose first name is Russell and whose last name he could not remember and who, he said, lives near the I. & C. station in Glenwood; and another boy about his own age, whose name he never knew and who lives in Indianapolis. Will Frazee believes he knows the Glenwood boy referred to, but so far has been unable to locate him.

Young Sterrett stated to the claim agent that the three boys met, according to agreement in New Palestine on Thursday night two weeks ago. He declared that they broke into the station, got about five dollars in money, but that he was given only \$1.50. Mr. Frazee says that the boys got about five dollars from the I. & C. cash drawer and also broke into the peanut machine, belonging to the station agent Wilkins, taking all of the pennies. It was the pennies from the slot machine that eventually caused the arrest of Sterrett.

Sterrett continued that the other boys kept the remainder of the money after he got the \$1.50 and kept all of the cigars and candy which they stole. He said that after they came out of the station, they went down the track, broke into a hand-car house, took the car out, rode down to a crossing, where they took the car off and abandoned it. Sterrett claims that he returned to Indianapolis alone. His confession was taken down in writing and was signed by him.

Conductor Riggs on the I. & C. is largely responsible for the arrest and subsequent confession of Sterrett. He noticed the boy riding on his car several times since the robbery and on one occasion observed that he paid his fare with small change, much of it in pennies, which were covered with peanut hulls and salt. The conductor became suspicious and watched the boy closely.

Early Tuesday morning, Sterrett rode into Connersville on the last car and unnoticed by the train crew, remained in the car and slept all night. The next morning he went to the station and attempted to creep into the car to sleep, when he was found by the train crew. They were suspicious, since he had been there the night before and called the police. He was edged in jail and later confessed to the New Palestine robbery, when accused of it.

Sterrett has come to the attention of local traction officials by hanging around the offices here. It has seemed to be his insane desire to ride the cars and he did it at every opportunity. He has stood around the station here, begging people for

money to go to some point on the road. It is said that he always had a ready story to tell, that his mother was sick or something of the sort and that he wished to reach her bedside. Only recently a local man took pity on him and bought him a ticket to Connersville. He became a nuisance and has been ordered out of the traction office several times by the agent.

LOCAL MAN TO CALL SENATORSTOGETHER

Lieutenant Governor Frank J. Hall of This City Will Preside at Session of State Senate.

MANY PLANNING TO ATTEND.

The Democratic members of the State Senate will meet in Indianapolis in December to discuss plans for putting legislation through the Senate and for organizing the Upper House for the coming session of the Legislature, says the Indianapolis Star. The meeting probably will be held at the Denison hotel and will be called by Frank J. Hall of Rushville, Lieutenant Governor, and president of the Senate by virtue of the office he holds. The date of the meeting has not been set. It may be held between December 10 and 15.

Lieutenant Governor Hall has received assurance from the Democratic senators that they will attend the meeting. Mr. Hall is desirous of exchanging views with the senators as to the plans to be followed, not only in enacting legislation, but in organizing the Senate.

DECLARES HE DID ALL IN HIS POWER

I. N. Harper Says he Filed Affidavits Against Men For Driving on Streets.

OFFICIALS MUST DO THE REST

It is not unlikely that the prosecution of Clyde Owens, driver of the L. L. Allen delivery wagon, and Ed Wolters, owner of a grocery store in West First street, against whom affidavits were filed yesterday by I. N. Harper, vice president of the Adams Construction company, for driving on the new brick thoroughfare in Main street, which has not yet been opened to traffic, will not be pushed. The affidavits were filed yesterday afternoon by Mr. Harper, but they were never given to the city marshal to be executed, so that the two men were never really arrested.

Mr. Harper said this morning that he was willing to fight the case as he wished to make an example of the two men. He said that he can not afford to have new streets ruined by premature driving on them. Mr. Harper declared that he had done all in his power and that it was now up to the officials.

SORRY FOR RABBITS.

New Castle Courier: It will be a sorry day for the rabbits and quails of Rush county Wednesday when they encounter the party of New Castle nimrods, which will visit that section of the State. The hunters will include Al Syphers, Dr. E. K. Westhafer, Prosecuting Attorney H. H. Evans and Claude Stanley.

Noah Murphy, formerly of this city, who has been in the livery business for some time at Carthage, is moving to Dunreith and will open a livery stable at that place.

LOSES VOICE AND USE OF HIS LEGS

Jesse Lawson of Near Milroy is Stricken and May Not Recover.

IS NOT ABLE TO CONVERSE

Physician Pronounces Disease Creeping Paralysis Which May Cause His Death Any Time.

Jesse Lawson, age 73 years, a well known stock buyer, living on the Rush-Decatur line, south of Milroy, was stricken with paralysis Tuesday, and as a result he has not been able to speak, and had only partial use of his limbs which have been more or less hindered, says the Greensburg News.

Mr. Lawson, although well up in years, has been an active man and went all over this and other counties buying stock. He was getting ready to go to Clarksburg to look at some stock when he was stricken.

He arose in the morning as usual and went out to the barn to get ready to make the trip. His people, who were in the house, noticed him in the barnyard trying to hitch up the horse, and after a time saw that he was not making any progress, so they went to investigate. They found that he had been a victim of a paralytic stroke and that he was suffering with his limbs. It took two of them to get him into the house. A call was sent to Dr. Beall at Clarksburg, who came immediately to attend him.

The physician pronounced him suffering with a sort of a creeping paralysis. His mind seemed affected, though yesterday he was able to feed himself and for a while had partial use of his limbs. This morning he was helpless.

Mr. Lawson, who is a brother of James Lawson, living on the Robert Meek farm, four miles northeast of this city, is a former resident of Clarksburg. He was one of the best known stock buyers in this section of the State, and in his business transactions of a score or more of years, he visited many counties, where he was widely known. The fact that he is an aged man, makes his condition all the more serious.

TURKEY DAY WAS ALL HUNTER'S DAY

Scoured Woods Today in Quest of Game, Many Getting License on Day Before.

MARRIAGE TAKES BIG SLUMP.

That hunters scoured the woods and fields of Rush county today, there is no doubt, when a glance is taken at the pad of hunters' licenses in the clerk's office in the court house. One pad was greatly diminished yesterday, in fact about fifty were sold in the ten hours that the office was open. But that was below the usual run on licenses. Seventy-four were sold on the day before Thanksgiving last year. But this year the clerk has sold at least twenty each day this week, thus making amends for the loss of yesterday.

Thanksgiving day has usually been a popular day for marriages, but it was not so popular this year, as only three licenses were issued yesterday. Last year a much larger number than that were issued.

WISH POSSIBLY MAY BE GRANTED

Henry Trobaugh, Who Attempted Suicide Two Weeks Ago Today, May Not Survive.

IS IN A TERRIBLE CONDITION

Has Wished to Die Several Times and is Still in the Same Mood.

It is more than likely that Henry Trobaugh, the farmer, living near Glenwood, who attempted to commit suicide several days ago by slashing his throat with a razor, will never survive the attempt. Physicians who have been waiting on him, have despaired of his life and say that he is gradually growing weaker. It is believed that he can not live many days. Dr. J. C. Sexton has been consulted and has been called in on the case.

It will be remembered that Trobaugh was found in the barn by his wife on the morning of Thursday, November tenth, bleeding at the throat, where he had cut a wound five inches in length, with an old, dull razor. The slash was said to be a terrible one and had the razor been sharper it is probable that he would have finished himself in the one cut. He was taken to the house, but could not talk as his windpipe was severed. As soon as the wound was sewed up, it was possible for him to say something.

The severed windpipe is the thing which is giving the physicians the most concern at present. It is said that the stitches in some places have torn loose and that the man's neck is in a terrible condition. Physicians say that it was a hard job and one that was very difficult.

It seems probable that Trobaugh's wish will be granted. As soon as the wound in his neck was closed, he said that he wished he had finished the job the first slash. It is known that he has made the remark to others since the attempted suicide and he expresses the opinion often that he would rather die than live. A New Salem minister has been calling to see him and he has expressed the desire "to shuffle off this mortal coil" to him.

UNION SERVICES WAS EXCELLENT

Dr. A. W. Jamieson, of U. P. Church, Pleased Large Audience With Masterful Sermon.

A CHORUS FURNISHED MUSIC.

The annual Thanksgiving union services of the Protestant churches of this city, were held this morning at the First Baptist church in North Morgan street, where a large audience listened to a masterly sermon, preached by the Rev. A. W. Jamieson, pastor of the United Presbyterian church. Special music was furnished by a chorus picked from the various choirs of the city.

Dr. Jamieson made allusion in his sermon to the Thanksgiving of yore and the manner in which the Pilgrim Fathers conducted it, and he closed with an eloquent plea for the retention of the true spirit, even if the times have changed.

The main auditorium of the church and the Sunday school room were well filled with listeners, who seemed to have come in the true spirit of Thanksgiving.

BUT HE DID COME BACK

Said That Dr. John W. Bell Has Returned Quietly.

Dr. John Bell, who about two months ago left St. Paul in his automobile while his wife was at church, returned to that place Wednesday, bringing his wife with him, says the Greensburg Democrat. He was said to have been first at Toronto, Canada, and later at Versailles, this State. After his sudden departure his wife left St. Paul presumably for her parents' home in Ohio. It is announced that they will resume their residence in St. Paul.

KNIGHTSTOWN MAN IN \$60,000 TRADE

Cyrus C. Barrett Exchanges Rush County Farm and Property For Indianapolis Houses.

ARE SAID TO BE VERY MODERN

Among the large realty deals closed yesterday was the trade between Charles F. Craig of Indianapolis and Cyrus C. Barrett of Knightstown, Ind., by which Mr. Barrett comes into possession of the Arthur and Elberton twin brick apartment houses, and Mr. Craig receives a 220 acre farm near Knightstown, residence property at 2238 Talbott avenue and a money consideration, says the Indianapolis Star. The value of the two apartment houses is \$60,000. The flats were built by Mr. Craig two years ago, and are modern. Each flat contains six apartments and is three stories in height. The dimensions of each building are 35 by 65 feet, with a 35-foot frontage on North street.

MARSHAL GIVES BOND

Bound Over to Circuit Court For the Killing of Shirley Barber.

On an affidavit and information filed by Prosecuting Attorney E. T. Quigley, C. A. Ellis, deputy marshal of Shirley, was brought into Squire Gimason's court on a charge of killing "Curly" Bailey, a barber at Shirley, says a Greenfield dispatch. He was bound over to court in the sum of \$5,000, which was quickly given by him.

PREPARES TO KEEP PROMISE

Lucky Candidate Hires Hall to Give Township Oyster Supper.

George W. Williams, Republican, of Knightstown, who was elected representative from Henry county in the State Legislature at the recent election, will keep his promise to the voters of Jefferson township, Henry county, and give them an oyster supper. Arrangements are now being made for the banquet, and two halls at Sulphur Springs have been rented for the purpose. K. K. Kirk, Republican candidate for sheriff, and H. H. Evans, candidate for prosecutor, with County Chairman Risk will join Mr. Williams in the supper for the voters.

EDITOR STRICKEN WITH PARALYSIS

John O'Hair, Publisher of the Laurel Review, is Taken Ill Very Suddenly.

WAS IN HIS USUAL HEALTH

Was Talking to an Employe When Attacked by Disease and Sank to Floor.

John O'Hair, editor and publisher of the Laurel Review, was stricken with paralysis Tuesday evening, while talking to one of the employees of the office, says the Connersville News. He suddenly sank to the floor without warning. Friends carried him to his home about two squares distant where physicians gave him prompt attention. Mr. O'Hair had been in poor health for a time but of late seemed to have been in better health than for years.

Mr. O'Hair was stricken about five o'clock. He was unconscious for some time after being removed to his home. He then recovered and was able to converse with members of his family. Dr. A. S. Gifford is attending him.

A message Wednesday afternoon to the News indicated that Mr. O'Hair was somewhat better. Much depends on whatever occurs on the third day after the stroke.

The rupture of a small vessel at the base of the brain is said to have caused the paralysis.

The O'Hair family is one of the oldest and best known in the White Water Valley. Mr. O'Hair's father conducted a foundry and implement factory at Laurel in the early days. The late Edgar O'Hair of Brookville was a brother and Mr. O'Hair has three sisters, who are prominent teachers in the Indianapolis schools. He has four daughters, one being the wife of George Mullen, former postmaster at Brookville; also Misses Edna and Claire, holding high positions as teachers at Anderson and Greenfield respectively, and Miss Alice, who is a student at the University of Illinois.

Mr. O'Hair founded the Review some thirty-five years ago and has been its publisher at frequent intervals since.

WAS VERY QUIET ON STREETS TODAY

The Business District Looked Like Sunday With All Business Suspended—Factories Closed.

STREETS ALMOST DESERTED.

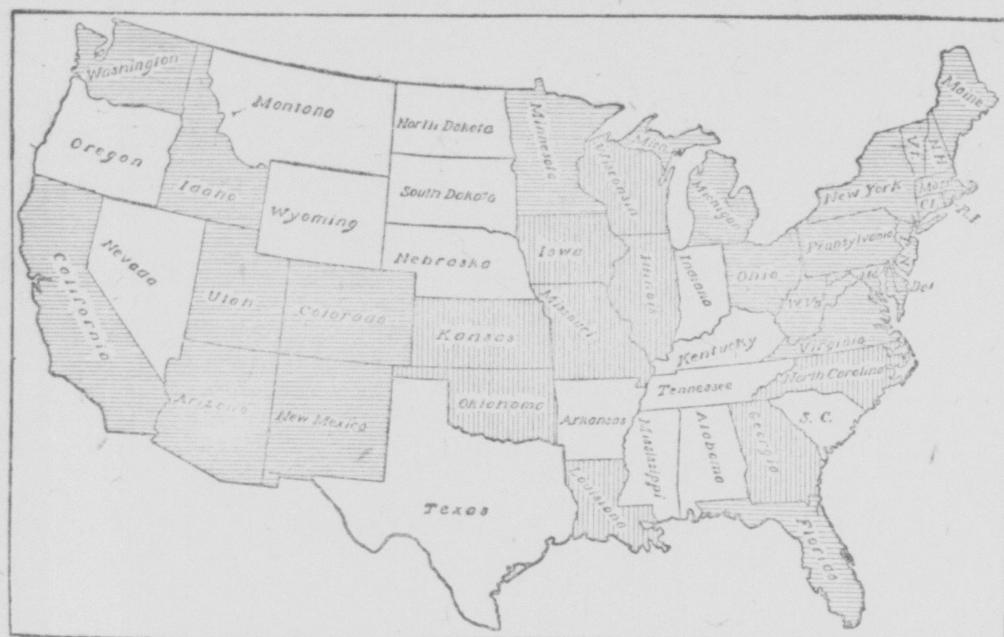

Did you mistake the day for Sunday? If you did, you couldn't have helped it, more especially if you happened to be down in the business district of the city. Most of the stores were closed throughout the day and quiet reigned supreme. The factories were all closed and the employees were given a holiday. The postoffice closed at ten o'clock and the court house was deserted all day.

TO VISIT HERE.

Connersville News: The Royal Neighbors will meet Friday evening at their hall. All members are requested to be present as the arrangements will be made for the Rushville trip.

The Good Roads Movement

Bad Showing for Indiana, According to the Map

Map showing those States giving aid in highway construction.
Horizontal Shading—States giving aid with cash.
Perpendicular Shading—States giving aid other than cash.

Only fifteen States do not assist in any way in the construction of public highways—and Indiana is one of these.

The other States build highways at State expense, pay part of the cost when roads are built by counties, furnish engineer aid, provide convict labor, or in other ways assist in the work of providing good roads.

Indiana does none of these.

The following States have highway departments in charge of public roads: Arizona, California, Colorado, Connecticut, Idaho, Illinois, Iowa, New Hampshire, New Jersey, Ohio, Pennsylvania, Rhode Island, Utah, Vermont, Virginia, Washington, West Virginia, and the territory of New Mexico. These States build

roads and assist counties with money and engineering service.

Delaware, Florida, Kansas and Wisconsin have no State roads departments, but they extend both financial and engineering aid. A few States pay all the cost of construction of State roads and in addition pay part of the cost of county and township roads.

The Indiana Association of Good Roads expects to present to the General Assembly of Indiana in January a bill creating a State highway Commission and providing for State aid in the construction of roads.

Every citizen of Indiana interested in better roads for the State may assist in this effort by petitioning the members of the legislature from his district to favor such a law.

Every organization that holds a State convention in Indiana between now and the time of the State Legislature will be asked to adopt resolutions favoring legislation that will promote roads for Indiana. Already such resolutions have been adopted by the Indiana Federation of Commercial Clubs, The Indiana Brotherhood of Threshermen, The Monroe County Farmers' Institute and the Plain field Public Improvement League.

These resolutions urge the Legislature to create a State Highway Commission and to appropriate money which may be used to build and maintain public highways. The resolutions adopted by the Indiana Federations of Commercial Clubs favor the use of State, County and Municipal Prisoners for the preparation of road material and for the

CHARMING HAIR.

Every Woman Can Have it by Using Parisian Sage Guaranteed by Johnson's Drug Store.

There is a reason for the phenomenal sale of Parisian Sage in the United States since it was first introduced into America, and the sales this year are breaking all records.

And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask Johnson's Drug Store about it and they will tell you that they rigidly guarantee it to cure dandruff, stop falling hair or itching scalp in two weeks, on money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

Sold by leading druggists everywhere and in Rushville by Johnson's Drug Store for 50 cents a large bottle. The girl with the Auburn hair is on every package; mail orders filled, charges prepaid, by the American makers, Giroux Mfg. Co., Buffalo, N. Y.

SUNNY MONDAY

Soap is cheaper than clothes and it pays, therefore, to get the best soap, even for laundry purposes. The best laundry soap made is a white soap called "Sunny Monday," which contains no rosin and is kind to clothes. One bar of Sunny Monday will go as far as two bars of ordinary yellow laundry soap which contains rosin; its use, therefore, means economy.

construction and repairs of Highways, providing such a plan is deemed feasible by the Governor and the Legislature. All of the organizations which have acted thus far favor a graduated automobile and vehicle tax, the proceeds to be used for the purpose of maintaining the Highways.

C. A. Kenyon, Chairman and Will J. Dobyns, Secretary, of the Executive Committee of the Indiana Good Roads Association have already appeared before several organizations in convention and have presented the plans under which this Association is operated. Mr. Kenyon declares that Indiana is far behind her sister States in the quality of her roads and blames the antiquated laws for this fact. He says that all of the States east and many of those west and south of Indiana have State Highway Commissions and extend State Aid in building and maintaining roads, while Indiana maintains her roads by working out road taxes—a relic of the middle ages.

Dr. Kenyon shows how poor roads levy a tremendous invisible tax on the farmer in the extra cost of hauling. Produce, he says, can be hauled on good hard, smooth roads at from one or five cents per ton per mile while on Indiana roads it costs from sixteen to thirty-five cents per ton per mile. According to the condition of the roads.

These facts and similar ones are being assembled for the purpose of presenting them on "Indiana Day" of the American Good Roads Congress, to be held in Indianapolis, December 6th-9th. While speakers with national reputations will address the Congress on matters relating to Good Roads, and how to obtain them, the local needs of Indiana and the methods of meeting them will be given special consideration on the last day of the Congress which has been designated as "Indiana Day." All citizens of Indiana interested in obtaining better roads for the State may obtain credentials as a delegate to the American Good Roads Congress by addressing Will J. Dobyns, Secretary of the Indiana Good Roads Association, Board of Trade Building, Indianapolis.

He Wanted Figs.

At a small stag dinner the only young and unnoteworthy person present sat throughout the meal communing with his own bashful soul, afraid lest by speaking he betray his sophistication. Dessert being served, he felt he must have some of the candied fruit at the other end of the table. Clearing his voice, he fixed the nearest waiter with a glittering eye and, amid a sudden total silence, peremptorily called out at the top of his voice, "Figs, fleas!"—Exchange.

For an instant there was a profound silence, for as he uttered the last word he encountered the stony stare of the lady who had been in his mind. Then his wife came to the rescue. "Oh, yes, dear," she said. "I sent it to the cat's home in a basket this morning."

MIDDLEMAN'S PROFITS SCORED BY DR. WILEY

Hammer at Them Day and Night Is What He Says.

Pittsburg, Nov. 24.—"The prices paid by the consumer for foodstuffs today loom up like the Washington monument, while the prices received by the farmer look like an humble gravestone," said Dr. Harvey W. Wiley, government chemist and pure food expert, who has arrived in Pittsburg. "I am a farmer," said Dr. Wiley, "and what I want to see is the cost of things reduced to the consumer and at the same time have the farmers' returns increased."

"Recently I tried to buy two carloads of lumber from a number of Virginia, West Virginia and Carolina timber companies, but would they sell it to me? Not so you could show a receipt for it. They told me to buy it from the jobbers who purchased it from them. When I tried to do this the jobbers told me they could sell only to retail dealers, and that I would have to pay the retailer's profit to get the lumber. As a result I had to pay \$300 more for it than it would have cost had the producer sold it to me direct."

"Publicity, publicity, and more publicity will emphasize these things. Hammer at them day and night and in time he'll have to pay the consumer more and charge the consumer less. Publicity was what made the pure food law. Enough of it will wipe out the difference between the 5 cents that the farmer gets for his steer and the price the housewife pays for the porterhouse steak."

The Poor English Landlord.

I have been a property owner for nearly forty years and during that period have lost from depreciation \$25,000, from empty houses \$10,000 and from defaulting tenants over \$5,000, or a total loss of over \$40,000. During this forty years I have never known a defaulting tenant honest enough to pay a shilling off the arrears when once he removed from the neighborhood.—Letter in London Telegraph.

GRANDDAUGHTER LAUDS INGERSOLL IN VERSE.

"Grandeur's Akin to the Cosmic Plan," She Writes.

In the August number of the Robert G. Ingersoll Memorial Beacon there appeared a tribute in poetry to the great lawyer from his granddaughter, Eva Ingersoll-Brown.

Colonel Ingersoll, it will be remembered, was born in Dresden, N. Y., Aug. 11, 1833, and his grandchild, between whom and himself a great affection existed, decided to celebrate it by the following verses:

Think of a towering mountain peak,
A sun kissed height;
The godlike mind of some great Greek
Or legendary knight
Or realms of golden sunset skies,
Where beauty's paces never dies,
Where Orpheus sounds the mystic string—
Of lyre that of love doth sing,
Where Aurora reigns in eternal dawn
In fadeless light on heaven's lawn!

Think of a billowy, shoreless sea,
A dancing wave,
A being who from fault is free,
A sacred grave,
A heart as large as eternity,
As tender and true as infancy;
Of a soul as lustrous as a star,
That like a sun doth look afar
To time when truth will be supreme
And mercy and justice no longer a dream!

Think of immortal melodies
Of music's soul,
Of wind in waving forest trees,
Life's lofty goal;
Of a spirit as white as new fallen snow,
Whose potency and brilliance must ever grow,
Since 'tis ever living and young
And ever of virtue and joy hath sung!
Think of a life like a perfect flower
A divine psalm,
Enriched with the perfume of love's sweet
dower
And pity's balm,

Adorned with thoughts of scope as vast
As are the heavens, where present, past
And future are inscribed in gold
Of his own spirit's wealth untold;
Where sympathy's a winged god
And truth and beauty's in every clod;
A life whose religion is rectitude,
Whose motive's service, not quietude,
To think of all this is to think of the man,
The incarnation of truth,
Whose grandeur's akin to the cosmic plan,
Robert G. Ingersoll.

"So your club is going to give a lecture tonight?" said the tall suffragette. "What will be the topic?" "Home industries," responded the president. "And what do you consider home industries?" YOU SAVE MONEY READING ADVERTISEMENTS

A store can afford to handle the best goods at the lowest prices that does the most business.

You can not limit a store by its size or location for the amount of business it will do in a year

The store which can afford to serve customers to the best advantage is the one that can turn over the goods more frequently and sell the most goods in a year.

The goods would remain on the shelves a long time if the merchant did not advertise continually and tell the people what he has for sale.

The goods become old before they are sold.

Therefore the store at which to trade is the store that advertises

This is true from the standpoint of variety and style, also from the standpoint of economy, for the merchant who advertises does a larger amount of business every year than the merchant who does not advertise and therefore can serve you to a better advantage.

The merchant who tells the public what he has for sale and why it is good is the one to trade with.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

Settle the Fence Question Right

There's only one satisfactory way to settle the fence question. And that way is to get the best fence—that fence is built to stand for many seasons. Pay a reasonable price and get the worth of your money.

Peerless Wire Fence

If it cost twice as much as it does it could not be made any better. It's the material, workmanship and scientific method of construction that makes Peerless Fence so strong and durable.

Peerless fence is sold most everywhere, but if it is not now on sale in your town your dealer can get it for you. He naturally prefers to sell what he has in stock, but you are looking to your own interest and not his, and should insist on his supplying Peerless.

Old Man of the Mountain.
The title "Old Man of the Mountain" was first applied to Hassan Ben Sabhal, who founded a formidable dynasty in Syria A. D. 1030. He was the prince or chief of the sect of the Mohammedans. Having been banished from his country, he took up his abode in Mount Lebanon and gathered round him a band of followers, who soon became the terror alike of Christians, Jews and Turks. They paid the most implicit obedience to his commands and believed that if they sacrificed their lives for his sake they would be rewarded with the highest joys of paradise. For 200 years these "assassins," as they called themselves, continued to be the terror of the country. Whenever their chief, the "Old Man of the Mountain," considered himself injured he dispatched some of his assassins secretly to murder the aggressor. This is the origin of our use of the word assassin for a secret murderer.

Serpents and Music.
Barnard concludes from his personal observation of cobras in Ceylon, says the Scientific American, that the serpent's traditional love for music is a pure fable and that the only effect of music is to arouse the reptile's curiosity, which is excited by any loud and acute sound. The cobra protrudes its head from its burrow alike on hearing the snake charmer's flute, the rattling of a chain or the sounds made by beating the ground with a switch. It appears to perceive only sounds of high pitch, for it pays no attention to the low notes of the flute or the beating of the drum. Barnard also con-

firm in Ceylon the results of observations made in the London zoological garden on the supposed power of fascination exerted by serpents upon birds, and he concludes that this power of fascination is also purely imaginary.

Arms and the Men.

"I see you have your arm in a sling," said the inquisitive passenger. "Broken, is it?"
"Yes, sir," responded the other passenger.
"Meet with an accident?"
"No. Broke it while I was trying to pat myself on the back."
"Great Scott! What for?"
"For minding my own business."
"I see. Never could happen to me, could it?"
"No."
"And if it did I wouldn't be blame fool enough to tell it."
Then there was silence in the car.—Chicago Tribune.

The Change of a Name.

How family names change in the course of many years is illustrated by the conversion of "Boteville" into "Thymne." An English deed bearing date in the closing days of the fifteenth century shows three brothers then flourishing—John Boteville of Boteville and Thomas and William Boteville. The trio are distinguished from all other Botevilles by the explanation of the name, or family residence, the title to which had come to their joint possession. John's grandson was known as Ralph Boteville-of-the-Inne, from which the transition to Ralph Thymne is easy. His descendants have been Thymnes ever since.

MEXICO TAKES A FIRM STAND

Martial Law Declared in Center of Agitation.

UPRISING IS BEING QUELLED

With Firm Hand the Government Is Taking Control of Cities Where the Discontent Was Being Manifested Most Seriously, and Quiet Is Reported Throughout the Agitated District—Inauguration Fetes Postponed.

Eagle Pass, Tex., Nov. 24.—The mining town of Mapimi, about fifty miles from Torreon, is reported to have fallen into the hands of revolutionists. There are some large American-owned mines at Mapimi. Fighting is reported near San Pedro, also in the Torreon district.

City of Mexico, Nov. 24.—Martial law has been declared at Torreon, Chihuahua, Parral, Gomez Palacio, Nogales, Ciudad Juarez, Ciudad Porfirio Diaz, and some other towns of small importance. At all these places the stores are closed and no business is being transacted. In the city of Chihuahua, a battalion of national guards is being organized to protect the city against insurgent attack. This city is supposed to be the center of the revolutionary conspiracy. Official reports say that quiet prevails throughout the country and that no troubles have occurred anywhere within the past twenty-four hours. The authorities, however, are very vigilant, anticipating that the rebels are planning to make sudden attacks on various towns. Rumors are current that Madero, the rebel leader, has crossed the frontier and is heading toward the center of the agitation. As a measure of precaution all the fetes in connection with the inauguration of President Diaz have been postponed until further notice. All bull fights scheduled for next Sunday have been forbidden.

GETTING THEIR BREATH

With Subsidence of Excitement Things Don't Look Nearly So Serious.

El Paso, Tex., Nov. 24.—Now that the people have recovered somewhat from their excitement which attended the first insurrectionary outbreak in Mexico, the situation does not look so serious to them. The Mexican government has made good its promise to maintain order so far as northern Mexico is concerned, and today there is not a town invested by insurgents, while Mexican federal troops are again in control of every village and city in Durango and Chihuahua, where there has been trouble.

That there cannot be much trouble along the line of the Mexican National railway between here and Mexico was evidenced when the train arrived on time. Governor Diego Redo of Sinaloa, who is returning to his state from the capital of Mexico, was aboard. Governor Redo was reported by passengers to have alighted to make inquiries at almost every station and there was no attempt to molest him. Redo declared that everything was quiet between here and Mexico City, and laughed at the idea that the insurgents could do any harm. He declared that they were a bunch of discontented workmen with incapable leaders and that the trouble amounts to no more than a strike in the States.

SOLDIERS ON GUARD

The Frontier Being Closely Patrolled by United States Troops.

Fort Sam Houston, Tex., Nov. 24.—Brigadier General Hoyt, commander of this military department, has received reports from points on the Rio Grande from El Paso to Brownsville, which show that the United States troops and other federal authorities are maintaining an effective patrol of the frontier. The armed bands of Mexicans which were reported to have their rendezvous on the Texas side of the river have either disbanded or gone into Mexico. Several seizures of arms are reported by deputy United States marshals in the upper Rio Grande territory. A few arrests for violating the neutrality laws have been made.

What They're Aiming At.

Washington, Nov. 24.—Headquarters have been established in Washington by the Mexican revolutionary party. Gustavo A. Madero, a brother of General Francisco I. Madero, the leader of the revolution, has arrived in Washington and will remain here for an indefinite period. He says: "The revolution is directed against the personal and despotic government of General Diaz, the dictator, and his oligarchy, by an outraged, betrayed, and plundered people, whose sole desire and purpose are to re-establish in Mexico a republican form of government, a government of law and order."

Reports Grossly Exaggerated.

New York, Nov. 24.—Dispatches received from Mexico by Wall street banking houses and corporations interested in Mexican enterprises are reassuring without exception. The purport of all of them is that the reports of riot or revolution had been grossly exaggerated.

SKIN AFFECTIONS

An Unusual Offer.

The Wolcott Drug Store says to every person, be it man, woman or child, who has an irritated tender or itching skin to come to our store and procure a bottle of ZEMO and a cake of ZEMO soap and if you are not entirely satisfied with results, come back and get your money. So confident are we of the efficacy of this clean, simple treatment, that we make you this unusual offer.

ZEMO is a clean liquid for external use that has cured so many cases of eczema, pimples, dandruff and other forms of skin eruption. ZEMO and ZEMO soap are sold by druggists everywhere and in Rushville by Wolcott's Drug Store.

ZEMO and ZEMO soap are the most economical as well as the cleanest and most effective treatment for affections of the skin or scalp, whether on infant or grown person.

CHINA LAND OF DUCKS.

Quacks of National Tidbit Drown Roar of Commerce.

Tourists in China are always surprised by the number of ducks they see. There are more ducks in China than in all the rest of the world. Their voices are a familiar sound in every town and country spot of the seacoast and the interior of the vast empire. Even in the large cities ducks abound. They dedge between the coolies' legs. They flit squawking out of the way of the horses. Their indignant quack will not seldom drown the roar of urban commerce.

Children herd ducks on every road, on every pond, on every farm, on every lake, on every river. There is no back yard without its duck house. There is no boat, little or great, without its duck quarters.

All over the land there are great duck hatching establishments, many of them of a capacity huge enough to produce 50,000 young ducks every year. Duck among the Chinese is a staple delicacy and is salted and smoked like ham or beef.

HUNTER DISGUISED AS TREE.

Illinoisan Follows "Birnam Wood" Suggestion in "Macbeth."

Harold Jensen, a University of Illinois student, will hunt geese disguised as a tree. The disguise was ordered from a theatrical scenic painter. When Jensen is inclosed in the thing he looks like a scrub oak. He expects to be able to stalk wild geese and get close up to them by means of the painted tree.

Jensen says he got the idea from Shakespeare's account of how soldiers attacking the army of Macbeth approached while concealed under tree branches carried in their hands and fulfilled the prediction that "Birnam wood would come to Dunsinane."

CAMPANILE NEARLY REBUILT.

Bells of St. Mark's to Peal Again in Another Year.

The new campanile at Venice that is to replace the old one destroyed in 1902 is nearing completion, and it is hoped that for Christmas, 1911, the bells of St. Mark's will peal again from its top and their echoes will sound over the lagoons. So far the new tower has reached a height of 195 feet, and the building of the bell turret, which from the base to the cusp is seventy-two feet high, has just been started.

The rebuilding of the campanile began in 1904, since when a hundred men have worked for 1,500 days and used 1,500,000 bricks.

SOME HOOSIER HIGH FINANCE

How Baldwin and Dague Ran Banks, Now Defunct.

OLD CASHIER ON THE STAND

Testimony Given at Logansport, Where Suit Has Been Begun to Collect Back Taxes From Baldwin Estate, Throws Light on Manner in Which Ambia, Goodland and Fowler Banks, Which "Went Up," Were Run.

Logansport, Ind., Nov. 24.—Light was thrown on the starting of the defunct Baldwin & Dague bank at Ambia, Ind., when William Randall, nephew of the late Judge Daniel P. Baldwin and cashier of the old bank, appeared on the witness stand here in the Baldwin tax case, which was before the county commissioners. Attorneys for the estate were endeavoring to have the county commissioners wipe from the tax duplicate the \$36,000 of alleged unpaid taxes, suit for the recovery of which is now pending in the Cass circuit court. Mr. Randall, who is cashier of the reorganized Ambia bank, was called as a witness for the estate.

He said that Daniel P. Baldwin and William H. Dague never put a dollar of their money into the Ambia bank; that business was done simply on the deposits, and that whenever a demand for money was made and he did not have funds with which to meet it, he called on Judge Baldwin and the needed amount was borrowed.

Mr. Randall said that at no time from 1897 until the time the bank was closed, in 1907, along with the Baldwin-Dague banks at Goodland and Fowler, was the Ambia bank solvent, and asserted that had Judge Baldwin withdrawn the borrowed money which he had put into it, there would not have been enough left to pay depositors. Much of the money was sunk by Baldwin and Dague in Arkansas timber land.

The testimony of other witnesses shows that Judge Baldwin ran his banks on the "borrow from Peter to pay Paul" basis, and that while he was supposed to be a man of much wealth, in reality he was poor. While he dealt in big projects, he was always borrowing money to finance them and his debts generally equaled the value of his assets. The commissioners decided against the petitioners and ordered the county attorney to proceed with the suit in the circuit court.

NEW WORKING FORCE

Indiana Auditor-Elect Names Assistants in Important Office.

Indianapolis, Nov. 24.—Five of the principal positions in the office of the auditor of state were filled when William H. O'Brien, who was recently elected to that office, announced the following appointments:

Myron W. King, Indianapolis, audit clerk; G. C. Terrill, Versailles, securities clerk; Harry L. Arnold, Elkhart, bank clerk; Gilbert H. Hendren, Bloomfield, building and loan clerk; James C. Fletcher, Knox, clerk in the insurance department.

Mr. King is the secretary of the Democratic state committee; Terrill has served as county superintendent of schools in Ripley county; Arnold has been connected with the Elkhart National bank for nine years; Hendren is in the newspaper business at Bloomfield; Fletcher is one of the party leaders in Starke county. John E. Reed, the present deputy state auditor, who was the Republican candidate for auditor of state against O'Brien, will be retained in his present position until after the session of the legislature.

Bishop in Auto Wreck.

New Richmond, Ind., Nov. 24.—Benjamin S. Haywood, bishop of Porto Rico, who is visiting his nephew, Charles Haywood, here, was injured when the auto in which he was riding struck a culvert. Thirteen stitches were taken in closing the wound sustained by the bishop. Mrs. Sarah Quiggle, sister of the bishop, was cut on the chin.

Death Follows Reunion.

South Bend, Ind., Nov. 24.—Within ten minutes from the time that Napoleon Hamp and his family had been reunited the former was run down and killed by a train. Mrs. Hamp and her child jumped to safety. Hamp was sixty-two years old.

More Bloodshed at Gary.

Gary, Ind., Nov. 24.—Ire Kidwell, an electrical worker, who shot William Brown, a painting contractor, was bound over on a bond of \$3,000. Claude Howard, who was shot by John Carlson, is still at the point of death in Mercy hospital.

Gas Kills Brothers.

Terre Haute, Ind., Nov. 24.—Thomas and Dewitt Rutledge, brothers, of Koken, Ind., were asphyxiated by gas in their bedroom in a lodging house. The coroner decided that their deaths were accidental.

He Was Despondent.

Shelbyville, Ind., Nov. 24.—Thomas R. Cutsinger, aged sixty-three, hanged himself at his home near Bengal. Cutsinger had been in poor health and also had domestic troubles.

KINGSTON ARISES FROM EARTHQUAKE'S RUINS.

Again Largest and Finest West Indian City, Havana Excepted.

Kingston, the city which was wrecked by earthquake and ruined more completely by fire in January, 1907, again takes its place as the largest city in the West Indies outside of Havana.

The work of restoration is almost complete, and although a few vacant sites remain unoccupied the principal shopping centers and the residential area have all been built up. The new Kingston is an immense improvement upon that which went to pieces in the catastrophe, and there are still works of public improvement to be undertaken.

Almost without exception the new store buildings are of re-enforced concrete and are as nearly fireproof as local conditions have made it possible. The principal streets are adorned by colonnades, some of a very imposing character.

Public gardens and open spaces adorn the principal sections of the city, the sites for these having been acquired by the government at considerable cost, much against the wish of the taxpayers. The results have, however, more than justified the expenditure, and Kingston is today more of a tropical town than it has ever been before within modern times.

The government buildings and the splendid structures of the Bank of Nova Scotia have served to alter entirely the appearance of King street from the sea northward. The harbor front has been completely restored, and there is now talk of a sea wall or esplanade being constructed, not only to facilitate shipping, but also to serve as a driveway or promenade. Plans are also under consideration for the construction of a new park to cover about forty-five acres of land.

THE NEW WAY.

[Mrs. Mary Schley Drown at her wedding was attended by three Japanese spaniels of royal pedigree instead of bridesmaids.—News Item.]
No more the bridal march, each lovely maiden
In fleecy crape arrayed, with blossoms laden.
No more the frou-frou of their dainty dresses
Along the aisle to where the parson blesses.
In place of these at wedding ceremony—
Provided things are on a basis tony—
Behold a string of purps of lineage blooded,
Glad rags adorning them and collars studded.
Behold a bride, who leads them to the altar
To noose a groom—who well deserves a halter.
But does a marriage license answer duly?
Would not a canine license fit more truly?

BRANCHES IN ALL THE PRINCIPAL CITIES

With base ball, foot ball, and election gone by, the terrible fact has to be faced that we will have to work for about five months.

Now if the Mexicans have learned anything by American politics, they will hand out a few post offices to the leading revolutionists, and all will be serene.

What's the use of an extra session of Congress anyway? We have had enough of half cocked tariff that are most dangerous to the man behind the gun.

When the Democratic editors announced a fall in meat prices, they seemed to have gotten their information from the campaign text books rather than the meat dealers.

Tolstoi left a wish to be buried without pomp or wreaths. He had no use for the mountains of flowers which so often represent merely a desire to conform to the etiquette book.

A sure way to find out how a congressman will vote on a certain tariff schedule is to take a map and measure the distance between the place where that industry is located and his own residence.

Foreign horses won the jumping classes at the New York horse show, but as long as country milliners got a chance to see the head-gear of the Smart Set, the principal function of the show was a success.

Nothing sounds better than when a marriage announcement is made and it is stated that the young couple prepared a home and furnished it in advance, and will go there directly after the ceremony and go to house-keeping. A young couple that does this sensible thing is sure to succeed in life.

Now that Thanksgiving is over, Christmas and Santa Claus will receive our next attention. The Santa Claus character is not universal in Christendom. Every country has its own peculiar character. In this country it was in New York, or rather we should say New Amsterdam, that Santa Claus made his first appearance in something like the garb now familiar to all of us. To them Saint Nicholas was a sacred personage, with his bundles of cakes and toys as he passed from door to door and possibly came down the chimneys of the houses on Heere Street, as Broadway was then called. They pictured him as fat with a Flemish nose, rosy cheeks, frosty beard and holding a long pipe between his laughing rows of teeth.

One of the causes of the present unrest and revolutionary outbreaks in Mexico is a spirit of anti-Americanism. The underlying cause of this anti-American feeling may be jealousy, on account of the increase of American investments and corresponding American influence in Mexico. But there is another cause for the pro-American attitude in Mexico, as well as in all Latin-American countries, and that is the attitude of the average American toward all dark-skinned foreigners, whom they are prone to put under the general category of "niggers" and treat them with contempt. It is the same with the foreign laborers, whether they are Italians, Macedonians, Greeks, Roumanians, Servians, Croatians, Bulgarians, Syrians or Armenians, they are all labeled "the d--d Hun-yaks."

WANT ADS BRING RESULTS

The local charity workers have been doing a good and commendable work, and they intend to widen their field of activity by better system and better organization. They want to help every child "born in poverty"—born of shiftless and prodigal parents is a better term for the condition that really exists. There is no excuse for anybody to be poor if in reasonable health. There is plenty of work for everybody—in the households, on the farms, in the factories—everywhere. The paving contractors here were hampered all summer for lack of help. The cry for help is universal and on account of the shortage of labor, good wages are being paid, even for the most unskilled labor. Hence as stated above, there is no excuse for anybody to be hungry or in need. Laziness and shiftlessness can be seen on every hand, however. Boys and girls who should be at work to give the family financial aid, are lying around in idleness. Unless charity is applied with great care and circumspection, it will have an effect opposite of what is intended. It will intensify the shiftlessness and laziness, and will tend to lay the foundation for pauperism.

Some Thanksgiving History

The manner in which Thanksgiving day was first instituted as a national festival has especial interest. During the war for independence eight public and general thanksgivings were ordered by the Continental congress, but after the general thanksgivings for peace in 1784 the proclamations were discontinued until 1789, when the first national thanksgiving was proclaimed by President Washington, the time designated being the last Thursday in November. The special purpose, as recommended to congress, was to give thanks for the adoption of the constitution. In 1795 the suppression of the whiskey insurrection was recognized by a presidential call for a national day of thanksgiving. The practice of officially recommending the observance of a thanksgiving festival was gradually adopted by the States until it now has place among the great holidays of the nation.

Here's Where the Fun Comes In

Before the police ordered the various raffle games out, a certain pool room was to give away a \$25 suit of clothes by this method. After the game was done away with the proprietor thought he would see who would have won if it had continued. The lucky number would have fallen to Harry Osborn. Now, of course, Harry is very much disappointed and is receiving much "kidding" about his "near" win. It seems a shame to get so near and be yet so far.

What Our Neighbors Are Talking About

IS STILL ALIVE.
(Marion Chronicle.)
The newspapers and politicians engaged in the harmless occupation of believing that Theodore Roosevelt is in the political graveyard should remember that William J. Bryan has had three elaborate funerals, and, according to the cowboy mayor of Omaha, who wasn't elected governor of Nebraska, is still a pretty lively corpse. About all that Roosevelt lost in the last campaign was some of the reputation for shrewdness and invincibility, because he let valor get the better of discretion at Saratoga and insisted on garnering a lemon. If Colonel Roosevelt will do what he ought to have done long ago, assist President Taft in his work and stand by him in its vindication he has still the most useful portion of his career before him.

A PRIM LIQUOR LAW.
(Columbia City Commercial Mail.)
We have 'pon honor of the best little Democratic governors in the country, our own home grown product, Gov. Thomas Reiley Marshall, that he will get one of the neatest, primest and most pert little liquor laws this winter at the hands of Steve Fleming's legislature that ever happened. However, it will repeal the county option lay and we'll be going in the front door to buy our booze in every town and burg in Whitley county after April fifth next. That date the county option blanket voted on the county two years ago expires, and then we'll have the old-fashioned, real saloon and plenty of it. E pluribus unum.

FALLING PRICES.

(Winchester Herald.)
The Democratic newspapers are gleefully announcing that by reason of recent Democratic victories the cost of living has already fallen. Has it? Ask the housewife who does the buying if she has discovered it. It is true the farmer has found his market for cattle and hogs, wheat and corn decidedly off, a reduction of from ten to forty per cent, but a search warrant will fail to discover an ultimate consumer who has been benefited thereby to the extent of a nickel. The farmers are finding out just what they should have known before that in the descent from Republican prices to Democratic prices the first and last to suffer, by the new adjustment will be the farmer and laborer and, the very last to be benefited is the ultimate consumer.

AMUSEMENTS

The Vaudet offers a special film for their Thanksgiving day offering in the Imp production "Among the Roses." It is a drama of much merit, telling a love story which is said to be the equal of any recent releases. The same coterie of famous actors are in the employ of the Imp people and always furnish such a class of acting as is to be found in a few films. A new illustrated song will be sung.

The Palace has a Biograph film tonight entitled "The Banker's Daughter." This is said to be a fine drama with a good plot. As the title suggests, the daughter of a wealthy banker is the principal character. She is in love with a man whom her father objects to her going with and he goes the limit to keep her out of his company. A new illustrated song will be sung.

The Star Grand offers a Biograph subject tonight entitled "Simple Charity," showing the difference between the ostentatious and the sincere. "And the greatest of these is charity." Charity, that much abused word. How often do we find real charity? Only among those poor souls who can ill afford to dispense it. Most times charity is bestowed with great ostentation and a fanfare of trumpets—we say charity, but it is only so-called charity. Humility is the father of real charity, where, upon most occasions charity is bestowed that the bestower may be glorified. An illustration of this is portrayed in this Biograph subject. Earl Robertson will sing "When You Think There's no one Looking."

AMORIA A QUEER LAND.

Amoria is the most ancient and honorable country upon the earth's surface, and is, without question, the most intensely populated. It is a green and fertile country and the principle occupation of its people is hearticultural husbandry. The form of government is Home Rule, and to become a citizen, although born in the country, it is required that at least one complete journey be made from end to end of the country's principal highway.

Amoria is bounded on three sides by Misanthropy, the State of Indifference and the Sea of Oblivion, emptying into which the Quarrel River forever pours its flatsam and jetsam.

Far up in the corner of the map we find Mount Curiosity, its snow-capped peaks lost in a soft gray veil of mist that has prevented the scientists from determining its greatest heights. The ascent of the mountain is usually made on the side where it comes nearest to the State of Indifference, where just below frost line there is a little plateau high, high in the heavens. This little plateau is known as the Plateau Platonic and is quite flat. In spite of its beauty and charm few travelers are satisfied to rest here long.—The Delineator for December.

He paused, swept the empty shelves with a calculating glance and came out around the end of the counter. "Everything's in tiptop shape," he said. "I checked up the bill of lading myself, and there's not a thing missing, not a bit of breakage. Mr. Graham," he continued, dropping a gentle hand on the old man's shoulder, "you're going to have the finest drug store in the state within six months. With the stuff that Sperry has sent us we can make Sothern & Lee look like 65 cents on the dollar. We're going to make things hum in this old shop, and don't you forget it." He laughed lightly, with a note of encouragement. But he avoided Graham's eyes even as he did Betty's. He could not meet the pitiful look of the former, any more than that stare of hostility and defiance in the latter.

"It's good of you, my boy," Graham quavered. "I—but I'm afraid it won't."

"Now don't say that!" Duncan interposed firmly. "And don't let me keep you. I think you said you were going out on business? And I'll be busy enough right here."

And, without exactly knowing how it had come about, Graham found himself in the street, stumbling downtown toward the bank.

When he had gone Duncan would have returned to the shelves for a final redding up. He desired least of all things an encounter with Betty in her present frame of mind. With a sudden movement she threw herself in front of Duncan.

"So you were listening?"

"I'm sorry," he said uncomfortably. "I didn't mean to hear anything," he argued plaintively. "I was in the room before I understood and by the time I did it was too late—you had finished."

"Oh, don't try to explain. I—I hate you!" she continued.

He held her eyes inquiringly. "Yes," he said in the tone of one who solves a puzzling problem, "I believe you do."

She looked away, shaking with passion. "You just better believe it."

"But," he went on quietly, "you don't hate your father, too, do you, Miss Duncan?"

"What do you mean by that, Mr. Duncan?"

"I mean," he said, faltering, "I'm going to give you a bit of advice. Don't you talk to your father again the way you did just now."

"Well, you ain't me!" she cried savagely. "You ain't me! Understand that? When I want advice from you I'll ask for it. Until I do you let me alone."

"Very well," he replied so calmly that she lost her bearings for a moment. And inevitably this, emphasizing as it did all that she resented most in him—his education, wit, address, his

Suddenly she found words—poverty stricken words, it's true, but the best she had wherewith to express herself. And for a little they flowed from her lips, a scalding, scathing torrent. "It's because you go to church all the time and try to look like a saint and—and try to make out you're too religious for anything and like to hear yourself givin' Christian advice to poor miserable sinners like me. You think that's just too lovely of you. That's why you said it, if you want to know. Folks wonder what you're doing here, don't they? Guess you know that, and like it too. It makes 'em look at you and talk about you, and that's what you like. I could tell 'em. You're only here to show off your good clothes and your finger nails and the way you part your hair and—and all the other things you do that nobody in Noo York would pay any attention to."

"A pretty good guess at that," he acknowledged candidly.

"Yes, it is, and I know it, and you know it. Oh, it's easy enough to give advice when you've got plenty of money and fine clothes and—but—"

"I understand," he said when she paused to get a grip upon herself and find again the words she needed. "You needn't say any more. The only rea-

son I said what I did was because I'm strong for your father and—well, I wanted to do you a good turn too."

"I don't want your apologies."

"All right. Only think over what I said some time."

"I ha a good reason for saying what I did."

"I know you had."

"How do you know?"

"Because I'm not what you think I am altogether."

"I guess you're not," she snapped.

"But I don't mean what you mean. I mean you think I'm conceited and rich and don't know what trouble is. Well, you're mistaken. Many's the time I've dodged round corners to avoid meeting men I knew would invite me to have dinner or luncheon or a drink—of soda—or something—for fear they'd find out that I couldn't treat in return. Many a time I've gone hungry for days and weeks and slept on park benches until an old friend found me and took me home with him."

She eyed him with attention.

"But it's your father I wanted to talk about," he hurried on. "I'd bet a lot he knows more than any other man in this town, and, besides, he's a fine, square, good hearted old gentleman. Anybody can see that. Only he's got one terrible fault—he doesn't know how to make money. And that's mighty tough on you—though it's just as tough on him. But when you roast him for it, as you did just now, you only make him feel as miserable as a yellow dog, and that doesn't help matters a little bit. He can't change into a sharp business creak now; he's too old a man. Before long he won't be with you at all, and when he's gone you'll be sore on yourself sure if you keep on throwing it into him the way I heard you, and that's on the level."

"I—I won't do it again," she faltered, twisting her hands together.

"Bully for you!" he cried and, with an abrupt if artificial resumption of

his businesslike air, turned away to a showcase to spare her the embarrassment of his regard.

"I didn't think," said the voice behind him, "I didn't mean to. Something happened that almost drove me wild and—"

"I know," he said gently.

After a bit she spoke again, "I'll go up and get dinner ready now."

He heard her footsteps as she crossed to the door and opened it. There followed a pause. Then she came hurriedly back. He faced about to meet her eyes shining with wonder. She grasped his arm timidly.

"I wanted to ask you," she said hastily, "it was it this friend you spoke about—that found you in the park—who set you on the road to fortune?"

"That's what he said," Duncan answered whimsically.

"I wanted to ask you," she said hastily, "it was it this friend you spoke about—that found you in the park—who set you on the road to fortune?"

"That's what he said," Duncan answered whimsically.

JUSTICE HUGHES

The Word Now Is That He Is to Be Chief Justice.

It is reported from Washington that President Taft has agreed to make Justice Hughes chief justice of the United States supreme court. It is said the official announcement will be made this week.

FUGITIVES ROUTED OUT OF THEIR CAVE

Ohio Jail Breakers Sought Refuge In Kentucky.

Grayson, Ky., Nov. 24.—Trapped in a mountain cave, where they had sought concealment after breaking jail at West Union, O., three fugitives had a sharp revolver battle with Sheriff C. W. Gibbons of Adams county, Ohio. One of the fugitives was killed and the other two surrendered.
 The men broke jail, fled to the Ohio river and crossed to the Kentucky side. The sheriff, with one deputy, followed their trail tirelessly and when he caught up with the men in the mountains back of this town, did not wait to observe the formalities of the requisition laws. He called on the men to surrender, and one of them, James Smith, fired at the official. The sheriff's first return shot killed Smith and then John Gaskins and William Burke came out of the cave with hands extended above their heads. They agreed to return to Ohio without requisition. Smith was buried here.

Lodge's Latest Ambition.

Washington, Nov. 24.—Senator Lodge wants to go to St. James as ambassador from the United States. In political circles, it is said, there is a very good chance that Lodge may secure this new honor. It has been reported many times of late that Ambassador Reid wants to be relieved of his duties. This would make it fair sailing for Lodge.

Becomes Head of Department.

South Bend, Ind., Nov. 24.—Mrs. Kathryn Wert Holler of South Bend, who has been state superintendent of the Sabbath observance department of the W. C. T. U. for twelve years, has received word of her elevation to the superintendency in the national union. She will be at the head of 17,000 local superintendents in the United States.

TERSE TELEGRAMS

The population of the state of Ohio is 4,767,121, an increase of 609,576, or 14.7 per cent over 1900.

The population of the state of New York is 9,113,279, an increase of 1,844,385, or 25.4 per cent over 1900.

THE LIMIT OF HIGH FLYING

Drexel's Machine Refused to Go Any Higher.

ALTITUDE RECORDS BROKEN

At 9,970 Feet the Barograph Ceased Registering and the Propeller of His Monoplane Was Found to Have Lost Its Lifting Power, Owing to the Thinness of the Atmosphere at That Great Height.

Philadelphia, Nov. 24.—J. Armstrong Drexel disappeared into the clouds from the aviation exhibition at the Point Breeze track late yesterday afternoon, pushed a 100-horsepower Bleriot monoplane almost two miles into the air, and won a new world's altitude record for aeroplanes when he hung at a height of 9,970 feet in the mists above Ambler before a six-mile down glide through the air landed him and his machine in an open field at Oreland, a suburb, thirteen miles north of this city.

For thirty minutes before he landed Drexel underwent one of the most remarkable experiences that are recorded even in the colorful annals of aviation. The official barograph of the Aero Club of America slung on the frame of the machine in plain view had registered the record-breaking height, when he found that his propeller had lost its lifting power owing to the lightness of the air at that great height. For almost half an hour while out of sight of earth he jumped and jerked the machine in an effort to force the wavering needle to the 10,000 foot mark and failed.

An examination of the instrument afterward showed that the ink had run out of the registering needle at the 9,970 mark and that the aviator possibly should have to his credit a flight of a good deal more than 10,000 feet upward. He was in the air an hour and twenty minutes.

MAIL UNDERWEIGHED

The Postoffice Department Causes a Shaking Up at Atlanta.

Washington, Nov. 24.—Postmaster General Hitchcock has ordered the removal of E. F. Blodgett, superintendent of the postoffice stations at Atlanta, Ga., and of James F. Norton and S. F. P. Giles, clerks in the Atlanta city postoffice. The department says that irregularities in the weighing of newspaper mail were discovered covering a series of years. The loss to the government is estimated at many thousands of dollars.

Because of inefficiency, L. M. Terrell, the superintendent of the railway mail service at Atlanta, has been transferred by the postmaster general's order from his position of responsibility to a minor place. Superintendent G. W. Pepper of the railway mail division, having headquarters at Cleveland, has been assigned to Atlanta, to supersede Superintendent Terrell. The evidence in the investigation at Atlanta has been submitted by Hitchcock to the department of justice, and that department will determine the question of prosecution. The statement is made at the department that a general investigation of methods of weighing second-class matter throughout the country is now being made by a department of justice agent who is now in the city with the idea of detecting and bringing to an end such irregularities as those disclosed at Atlanta.

NIGHT RIDER CASES

Lack of Evidence Causes Many Dismissals in Paducah Court.

Paducah, Ky., Nov. 24.—Lack of evidence against them caused Federal Judge Walter Evans to dismiss 125 alleged night riders who were defendants in damage suits aggregating \$200,000. Former Police Judge C. W. Rucker, who was whipped and driven out of Eddyville by alleged night riders and who sued for \$20,000, recovered \$7,000 from D. A. Amos, reputed general of the night riders, and Wallie Bennett. Thomas Stephens, confessed night rider, who was driven from the state by the band and who sued for \$20,000, recovered \$200.

Ruef Must Serve Time.

San Francisco, Nov. 24.—The district court of appeals has handed down a decision affirming the finding in the case of Abraham Ruef. This means that the former boss of San Francisco, who with Mayor Schmitz, was indicted on many counts of bribery and was convicted, must serve fourteen years in San Quentin.

Caught at Death Trap.

South Bend, Ind., Nov. 24.—Napoleon B. Hamp of this city was run down by a Lake Shore mail train at a grade crossing in this city and instantly killed. The crossing is at Main street, and has long been a death trap, as the railroad tracks curve in both directions, making a clear view impossible.

Sentenced For Mayhem.

Buffalo, N. Y., Nov. 24.—Convicted of complicity in the cutting off of the right ear of Edward A. Frazer, a non-union sailor, in this city June 27, Joseph Meyers, alias Mike Armstrong, was sentenced to not less than six nor more than thirteen and a half years.

ETHEL BARRYMORE

Popular Actress Denies With Tears Those Divorce Rumors.

New Orleans, Nov. 24.—With tears in her eyes Ethel Barrymore declares she is not going to get a divorce from her husband, Russell G. Colt, member of the famous Rhode Island family. Young Colt refuses to talk. There have been many reports that the married life of the famous actress has been unhappy.

TREASON IN CAMP OF THE MINE WORKERS

At Least That Is What Lewis Virtually Charges.

Indianapolis, Nov. 24.—President Lewis of the United Mine Workers of America has an article in the current issue of the association's organ that virtually charges that the failure to re-establish the interstate wage agreement was due to traitors in the organization. In discussing the question he points out that John Mitchell, former president of the miners, retired voluntarily from the presidency of the U. M. W. A., and became chairman of the trade agreement department of the Civic Federation. "What," he adds, "has the Civic Federation done to establish or promote trade agreements between employer and employee?"

He adds that W. D. Ryan, former secretary of the miners, and H. C. Perry, former president of the Illinois organization, have retired and are now employed by coal operators. He says he does not wish to criticize the men who left the movement to represent the employers of labor, but he believes every member of the United Mine Workers should resent any interference with the policies of the mine workers by men who are in the service and paid by the employers of labor. He concludes by declaring that "the disposition of a few of the miners' leaders to favor certain operators to the disadvantage of their competitors has also done much to prevent the complete success of the interstate joint movement in arranging wage contracts on a basis that is fair and equitable to all concerned."

TWO STORIES

One Points to Serious Trouble in Brazil, the Other Minimizes It.

London, Nov. 24.—A private dispatch received at Barrow states that the crews of the Brazilian warships at Rio de Janeiro have mutinied and are bombarding the city. It adds that all the English engineers are safe. The dispatch, which gives no details, was sent to reassure the friends of about fifty Barrow engineers, who took the warships Sao Paulo and Mines Geraes to Brazil.

A Brazilian merchant in London has received a telegram from an official Brazilian source that the disturbance is of small dimensions, and that it is due to the sailors' discontent with their pay. The merchant knows nothing of any bombardment.

A private telegram from Rio de Janeiro reached London after midnight this morning, stating in effect that business in the Brazilian capital has completely stopped. The Brazilian legation here says that the crew of only one battleship are mutinous.

Argus Eyed and Hydra Headed.

The term "Argus eyed" means watchful. According to the Grecian fable, Argus had 100 eyes, and Juno set him to watch all of whom she was jealous. When Argus was slain she transplanted his eyes into the tail of the peacock. "Hydra headed" is a term derived from the fable of Hercules and the hydra. The hydra had nine heads, and Hercules was sent to kill it. As soon as he struck off one of its heads two shot up in its place.

No Fire Within.

Times have changed. Our fathers for some strange reason preferred a cold meeting house to one which was warmed by artificial heat. When a stove was put into the Old South church, Boston, in 1783 a newspaper of contemporary date contained this significant lament:

Extinct the sacred fire of love,
 Our zeal grown cold and dead,
 In the house of God we fixed a stove
 To warm us in their stead.

In certain parts of Mexico the natives hank the nests of a large species of spider in their houses to entrap flies and other small insects.

In Abyssinia the wife is master. If her husband offends her she can turn him out for house and furniture are hers.

Wild ducks are estimated to fly ninety miles an hour; swallows fly rather faster.

Would Change Fish Law

Will A Yarling of Shelbyville, State senator from the district composed of Shelby and Johnson counties, will introduce a bill at the next session of the State legislature, which, if passed by both branches of the assembly, will meet with a hearty note of approval from his constituents in the two counties and the public in general. Senator Yarling believes that the fish law in its present form tends to work a hardship on those persons who should derive the greatest benefits and he is preparing a measure that he believes will be a popular one and alleviate these conditions if it becomes a law.

Senator Yarling believes the farmers, especially, should be the ones that should be favored by the law. Farmers owning lands through which streams run are put to many inconveniences and at the same time they do not fare any better under the law than the taxpayer who lives a thousand miles from a flowing stream. It is known that Senator Yarling's ideas in the matter merely voice the sentiments of hundreds of farmers in Shelby county. The feature of the law governing the dynamiting of fish would remain the same, if the bill to be introduced by Senator Yarling becomes a law. One radical change from the present law that is included in his bill is, that it would establish an open seining season. This would come after the spawning season and would permit farmers to have seines in their possession. As the law now stands any person found having a seine twelve feet long and four feet wide in his possession is subject to a heavy penalty. Many Shelby county farmers can testify to this feature of the law, as two fish and game commissioners spent several weeks in Shelby county last spring.

The true sentiment regarding the present fish law in Shelby county can be seen in an incident that happened at the Democratic primary in Shelby county during the month of August. Jesse Scott, candidate for representative, made his campaign almost solely on the fact that he stood for the repeal of the fish law. He placarded the entire county and the number of votes he received showed that the good farmers of Shelby county heartily approved his stand. While there will be some objection to the bill, it is believed that it can be overcome, if the sentiment is anything like it is in Shelby county.

BIG GAME THIS AFTERNOON

New Palestine Team Arrived at Noon
—Locals Confident.

The New Palestine football team arrived in this city at noon today. They appeared to be a husky bunch and capable of putting up a good game. The local team held its last practice this morning and were confident of winning but not by a large score. The game was called at two-thirty o'clock this afternoon before a large and enthusiastic crowd.

OX TEAM MAN WILL PROBABLY BE HERE

Ezra Meeker Who Travels Through Country in Unique Manner is on Way to Washington.

IS IN INDIANAPOLIS NOW

Ezra Meeker, the aged man who travels through the country in a wagon, drawn by a large team of oxen, will, no doubt, be here in a few days. He is in Indianapolis now and will probably pass through here on his way to Washington. A telegram from Paris, Ill., says:

"Ezra Meeker and the ox team with which he is making his second trip from Seattle, Wash., to Washington, D. C., left here yesterday for Terre Haute and will go from there to Indianapolis. Meeker first traveled the Oregon trail fifty-eight years ago, and is now devoting his last years to its relocation with a view to obtaining an act of congress providing for suitable granite markers along the trail. His first trip was made in 1906-1907, and resulted in the introduction of bills in both houses, providing \$50,000 for this purpose. Subsequently more definite information was asked for and he decided to go over the long road again, comparing the original notes with government surveys and endeavoring to obtain an exact estimate of the cost. He will be 80 years old in December, but he says he expects to devote twenty more years, if need be, in the effort to complete his self-appointed task."

SOCIETY NEWS

Amos Baxter was pleasantly surprised last night at his home in West Seventh street, by a large number of his friends. The occasion was his birthday. Refreshments were served and the evening was enjoyably spent by all.

The grand march will begin promptly at eight-thirty o'clock at the annual Thanksgiving dance to be given in the Modern Woodmen hall this evening. Guests from practically every city in this section of the State are here for the occasion which promises to be the most largely attended "hop" here in years. Colored musicians of Indianapolis will furnish the music.

JUST THREE LOG SCHOOLS REMAIN

Scenes Like Those in "The Hoosier Schoolmaster" Have Vanished in Indiana.

NONE LEFT IN THIS COUNTY

Scenes like those in "The Hoosier Schoolmaster" have vanished in Indiana and only three log school houses remain in the State, according to the statistics compiled by John J. Hoffman, assistant in the department of public instruction. Two are in Clarke and one in Dubois county. Last year Harrison county reported one but this year it is missing.

The number of school houses in the State is decreasing rapidly. Centralization and consolidation is the explanation given. In 1910 there were 9,283, which is eighty-one less than in 1909. In 1909 the number fell off seventy-three from the number in 1908.

The number of commissioned high schools in the State is 6,159 and pupils enrolled 43,236; non-commissioned high schools, 856, and pupils enrolled, 7,584.

DON'T TAKE IT TO A BUNGLER
a skilled mechanic is what you want; bring it here if your automobile needs repairing. We will repair it so that it is as good as new. We guarantee our work. Our customers are always satisfied with our work and with our prices. You will be satisfied if you send your work here, because we do only good work.

A LITTLE BILL FOR A LARGE ORDER

is the surprise we spring on first time customers of this grocery. Old customers are used to it. But we don't cut qualities in order to cut the bill. Experienced housekeepers will tell you there are no finer groceries than ours in town. Try them and you'll find they are right and make a good saving as well.

Nothing Too Good

For the People of Rushville and Rush County

After being closed down for three weeks remodeling our mill, we are again running under full steam, and are making "CLARK'S PURITY FLOUR" better than ever before, so you know it must be very fine, as it always has been the best on the market. Others have FLOUR that they sell under the brand of PURITY, but it will not stand the test with "CLARK'S PURITY"
